Mayor Liu,

Hello,

My name is Evan Siroky and I live in Santa Cruz County. Why is someone from Santa Cruz County emailing people in Brisbane? Well, I want your city to build more housing and here is why: Because of this state-wide housing crisis people are living further and further away from their jobs to find affordable housing. I personally know of someone who commutes all the way from Santa Cruz County to South San Francisco every day. According to data from the Census there are over 1,000,000 jobs within a 5 mile radius of your city, yet 15% of those workers commute over 50 miles to work.

The state of California is in the midst of a housing crisis. More housing must be built for people to live in. Every city has a responsibility to respond to this crisis by allowing housing to get built. Your city has a perfect opportunity for you to provide thousands of housing units very close to jobs. I urge your city to approve as much housing as possible immediately.

Thank you, Evan Siroky

Subject: Re: Please support building housing!

Correction, the number of jobs is actually only ~ 650,000 but that is still a lot of jobs!
