Subject: Please support the proposed Baylands plan

Dear Mayor Lori S. Liu,

Having grown up in Livermore and then a 40 year plus Coastsider, I truly understand the seismic shift this development will have on the nature of your community. That being said, change is inevitable and too many communities spend all of their energy trying to stop projects, usually getting concessions but a much poorer end product. Please recognize the writing on the wall. We need housing. You have bare dirt. Housing is the highest and best use for a chunk of that dirt. Please support the proposed plan.

Regards,
Judy Taylor
