Subject: Houses

Hello wonderful people of Brisbane!

I'd like to talk about the Baylands. It would be such a wonderful place for some new neighbors. Right on the CalTrain and next to many great jobs like Genentech and all of the biotech companies that are trying to cure diseases and help humanity in your community. Would be a great space for 10,000 new houses, since housing is so scare at the moment. We could really use a lot more. Thank you!
