Subject: Housing on the Baylands

Comment from Bill dettmer to the city council

I support housing on the Baylands because I feel it is a long-term solution to a regional problem that affects many people. Adding housing units to the market will help people who do not own homes but rent. I feel the best gift we could give to a whole class of people who do not own their own homes would be to keep rents reasonable and the only way to do that is to increase Supply.

Respectfully bill dettmer
