Subject: Vote Solar

I am a Brisbane resident since 1997. I moved here from SF because I wanted a quieter, greener small-town atmosphere. I just don't see why it's Brisbane's responsibility to solve SF' housing crisis and allow the developer to get a big profit, when doing so will ruin Brisbane's wonderful, unique qualities.

Please vote for solar alternative. We don't need traffic and congestion, etc. that 4400 new residents will bring.
