Subject: Work with UPC to move Brisbane Baylands forward

Hello,

As a Brisbane resident for 13 years, I would like to indicate my support for housing at Baylands area. I think it is imperative that be considered with commercial development . There is a very real housing crisis in the Bay Area including Brisbane. One bedroom houses in Brisbane selling for over \$700 thousand is proof. Development with commercial and housing are most successful and don't create dead zones at night and on the weekends. It is prime centrally located land that deserves thoughtful mixed use development. I like the proposed plan and will make Brisbane a better place.

Sincerely,  
Emil Spickert
