Comm. Dev. Dept. Brisbane

Brisbane Planning Commission  
c/o John Swiecki, Director of Community Development  
50 Park Place  
Brisbane CA 94005

Brisbane City Council  
c/o Sheri Spediacci, City Clerk  
50 Park Place  
Brisbane CA 94005  
Date:

Dear Commissioners/City Council members:

- 1) We young citizens of Brisbane cannot come to your meetings because we are too busy with homework and need to keep our bedtime;
- 2) We are very concerned about all the poisons in the huge Baylands dump that can harm human beings and never be completely cleaned up;
- 3) Whatever development you are planning, when actually built, will affect us more than anyone else;
- 4) The CREBL Plan for Renewable Energy was designed by Brisbane people to avoid the worst impacts and meet the needs of all of us, not just the billionaire developer;
- 5) It is the only plan that will create enough energy for both development and the rest of Brisbane, it is energy-positive;
- 6) The Federal government has said the plan is "environmentally superior" because it will reduce greenhouse gases and slow down worldwide climate change;
- 7) [any personal opinions, what it means to you]
- 8) Please approve the Renewable Energy Alternative as the basic plan for the Baylands.
