Brisbane CA 94005

Subject: Endorsement of Renewable Energy Alternative for the Baylands

As a resident of Brisbane and former member of the Citizen's Committee for the Baylands, I am writing to voice my strong support for the Renewable Energy Alternative for the Baylands project (aka "CREBL Plan"). Of the options being considered, CREBL's is the only one that is in compliance with the city's General Plan. Moreover, it is the most feasible and beneficial of all the plans when factoring impacts to the environment, community health and safety, and traffic and congestion.

Thus, I urge the Commission to support the Renewable Energy Alternative. The plan is not only good for Brisbane and its residents, but would set a shining example in the global fight against climate change (as highlighted by the recent Paris Agreement at the 2015 United Nations Climate Change Conference).

Sincerely,

Pamala Sayasane
