

Brisbane Planning Commission  
c/o John Swiecki,  
Director of Community Development  
50 Park Place  
Brisbane CA 94005

December 12, 2015

Dear Planning Commission,

By way of introduction, I have owned a home and lived in Brisbane since 1983. We raised our two kids here, and love the town. I plan to stay here for the rest of my time on the planet.

I have attended a few of the recent meetings, but my work schedule does not permit me to attend as often as I should. That said, please note that I strongly favor the CREBL Renewable Energy Alternative for the Baylands. I dread the thought that we might squander this once in a lifetime opportunity by caving in to commercial interests. I also fear more traffic congestion. Enough is enough. My commute has become nearly unbearable sometimes. Plus, we cannot continue to do business as usual with regard to renewable energy.

Thank you for your consideration, your time, and your community service. Please don't sell us out.

Sincerely,

A handwritten signature in black ink, appearing to read "Bruce Peltier". The signature is fluid and cursive.
