

**Dear Brisbane Resident:**

You may recall having received a letter from Mayor Cy Bologoff earlier last week, requesting you to participate in the City's once-a-year Community Survey. Your household was one of 500 randomly selected by the City to respond. Therefore, you will notice a number near the top of the survey that follows. This number will allow the City to keep track of who has responded and who we need to follow up with. There will be two people handling the survey retrieval process – one to check in your survey and cross your name off of the survey list, and one to key in the results. Therefore, the results of your survey will be kept completely anonymous, as there will be no way to cross-reference who turned in which survey. Your answers will help the City Council make decisions that affect our community, so please participate!
