

Dredge Update 8-14-2016

- Dredging is continuing on Dock 5, and soon will involve dock 6. We will call you as soon as we have a temporary slip for you, and once dredging is finished in your “home” slip area, **you will be called once we get word** you can move back. PLEASE DO NOT move back unless you are asked to do so; **please move “home” ASAP** once notified to free up temp. slips for the next cycle.
- Dredgers should be routinely contacted on Marine radio band **Channel 80**, IF they are present when you need to move- and you are advised to contact them anytime they are working and you are moving in or out of the Marina. (They also monitor Ch. 16). Sometimes, a few minutes may be needed to relocate their equipment- they are able to better respond when you give 15-20 minutes notice before moving. **Slow, safe vessel moves in all Marina areas are requested.**
- Dredgers are moving on Wednesday 8-17 by 6 AM to the South side of the North finger of **Dock 5 to include slips 5001 to 5052**. Boaters in this area will be contacted with a temporary slip assignment as soon as we have a temporary available. **FOLLOWING phase** starting Fri., 8-19 at 6AM is Dock 5, slips **5A, 5B, 5005-5053, AND dock 6 slips 6010, 6011, 6012, 6014**. We will advise of temporary slip assignments as soon as we are able to find one for you.
- **After this phase of Dock 5 is complete**- we will empty the slips on **ENTIRE Dock 6/7 area at once**. Again- *you will be contacted as soon as possible once we are advised of possible moves.*
