Subject: Support of the Planning Commission's Decision on the Baylands

Dear Council Members,

We are writing in support the Planning Commissioners recent findings regarding the Baylands.

We agree with the Planning Commission that we should not build a housing development of any kind in the Baylands for many reasons, such as toxicity, sea rise, and the responsibilities that the City of Brisbane would incur for social services, schools, roads, police, fire and other maintenance of a development that would more than triple the size of our little town.

Thank you,
Beth Grossman and Storrs Hoen
