

Dredge Update 8-03-2016

- Dredging is continuing on Dock 4. It is anticipated that dredging in this area will be completed on 8-10: if this is your “home” slip area, **you will be called once we get word** you can move back. PLEASE DO NOT move back unless you are asked to do so; please move “home” ASAP once notified to free up slips for the next cycle.
- Dredgers should be routinely contacted on Marine radio band **Channel 80**, IF they are present when you need to move- and you are advised to contact them anytime they are working and you are moving in or out of the Marina. (They also monitor Ch. 16). Sometimes, a few minutes may be needed to relocate their equipment- they are able to better respond when you give 15-20 minutes notice before moving. **Slow, safe vessel moves in all Marina areas are requested.**
- Dredgers are moving on Thursday, 8-11 to the South side of the South finger **Dock 5 to include slips 5054-5116**. Boaters in this area will be contacted with a temporary slip assignment. **FOLLOWING phase** is Dock 5, slips 5002-5052 & 5057-5115, anticipated start 8-15-16. We will advise of exact move dates & temporary slip assignments as soon as we are able.
- **After this phase of Dock 5 (slips 5054-5116, 5002-5052 & 5057-5115) is complete-** we will empty the slips on **ENTIRE North side, North finger, Dock 5 and ENTIRE Dock 6/7**.
Again- you will be contacted as soon as we are advised of possible moves.
