* Install 6" P.C.C. slab underneath for support.

---

NOTES:
1. All services to be Hot Tap.
2. Customer shall provide a Brass Ball Valve in Customer Valve Box immediately downstream of the meter box.
3. Mark a "W" on curb at all water services.
4. Center Meter Box over Meter to grade.
5. Install touch reading lids for this project.
6. Minimum bronze swing check valve required after meter.
7. Double check assembly is required for common domestic and fire suppression system lines (See W-4A)
