

Dredge Update 7-28-2016

- Dredging is almost done on the NORTH finger, Dock 3. It is anticipated that dredging in this area will be completed on 7-28: if this is your “home” slip area, **you will be called once we get word** you can move back. PLEASE DO NOT move back unless you are asked to do so; please move “home” ASAP once notified to free up slips for the next cycle.
- Dredgers should be routinely contacted on Marine radio band **Channel 80**, IF they are present when you need to move- and you are advised to contact them anytime they are working and you are moving in or out of the Marina. (They also monitor Ch. 16). Sometimes, a few minutes may be needed to relocate their equipment- they are able to better respond when you give 15-20 minutes notice before moving. **Slow, safe vessel moves in all Marina areas are requested.**
- Dredgers are moving on Fri., 7-29 to EAST end (seawall side) **dock 4 to include slips 4042-4072.** Boaters in this area have been contacted with a temporary slip assignment. **FOLLOWING** phase is Dock 4, slips 4001-4041, anticipated start 8-1-16. We will advise of exact move dates & temporary slip assignments as soon as we are able.
- **After Dock 4 is complete-** we will empty the slips on **ENTIRE South side, South finger, Dock 5.** Again- *you will be contacted as soon as we are advised of possible moves.*
