2017 Tide Tables are here!

Happy SPRING!

Several areas to update this month...

- We are working hard on our WiFi, but sadly, malware and rampant misuse of our system has posed challenges– we will fix the issues.
Your patience is appreciated!
- Rate increase– the final rate increase of 10% to cover the costs of our dredging will occur with the June billing cycle. We are STILL one of the lowest priced Marinas in the entire Bay Area, and are constantly striving to improve facilities, infrastructure, etc.- and we all WORK to keep your business. The June bills will be sent out in May, and as a reminder– we require that you pay by the LAST day of the preceding month (example, by May 31) for your June bill.
- Teresa asks that I remind you that if you have an automatic, bank-generated check sent to cover your monthly berth rent– be sure to update the amount to reflect your new slip rate, as noted in your June bill! This is very important, and several folks have had issues because they did NOT do this, and are more and more behind as the months roll on.

There is a NEW after-hours emergency contact phone number posted on the door of the office, to be used to contact me personally should there be an emergency involving your vessel and you require assistance. I believe it is very important to be available to you if you truly need any assistance– this is another example of what sets the Brisbane Marina apart from other berthing facilities. I strive (along with every member of my staff) to give you exceptional, quality service.
