How long have you lived in Brisbane? 2 years (San Francisco native)

Occupation: Software Engineer

Employer's Name: Google

Present Position: Software Engineer Length of Employment: 1 year

Why do you want to be a member of the Open Space and Ecology Committee?

 I love Brisbane — it's small-town feel, it's beautiful mountains and charming terraced streets. I would love to give back to Brisbane and become a more active member in the community and as an avid outdoors person the Open Space and Ecology seems like the perfect fit.

Please list any background information (business, education, personal) that might be useful, especially concerning activities that demonstrate your record of public service and commitment to the community.

 While my background is not especially relevant to this position (BS in Electrical Engineering and Computer Science, MIT Class of 2014, and have worked as a software engineer since

graduation), as a highly motivated and energetic individual who loves hiking in the San Bruno mountains just outside my doorstep, I will eagerly rise to the occasion to assist in any way!

What do you feel you could contribute to the Open Space and Ecology Committee?
Please provide information that demonstrates your interest in open space and ecological issues.

As someone who spends most weekends skiing, sailing or backpacking, sustainability and environmental issues are always at the forefront of my mind. Writing proposals and reports of future and completed projects plays a large role in my position at work, and I would love to bring these skills to the table on the committee to assist with drafting the required reports.
