2017 Tide Tables are here!

Finally… the new WiFi system is live!

After a long process of selecting vendors, designing the system to be robust with good coverage– we are LIVE. Today (9/9) was the first day of issuing credentials for the login process, and with over 25 issued and no problems so far, the system looks like it is working as it should.

We have a firewall which will prevent most types of nefarious activities, and will serve to help protect you and your data as you go online.

REMEMBER- The system access is a privilege, and we ask that you use it properly. We are able to lock individuals out, and we hope to never utilize this feature.

Please visit the office to get your login key activated next time you are at the Marina.

In other news, our trapping program for skunks and raccoons will continue as needed. Almost all dock gates are now sporting BIRD SPIKES, which will hopefully prevent them from nesting in their favorite spots.

We are still seeking input for viable business or concession ideas that would provide us more resources at the Marina… please let us know what ideas you might have.

As always, my door is open and I am here to answer questions or address any issues of concern, Tuesday through Saturday.

**We are happy that you have chosen the Brisbane Marina!**

Michael Hahn
Harbormaster
